Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 7 and 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Masumoto et al (JP 40813461) in view of Cecconi (4995811). Masumoto teaches a denture plate formed with an amorphous alloy, see English Abstract. Masumoto does not teach a polished surface. Cecconi teaches polishing a metal denture, column 4, lines 57-63. It would be obvious to one of ordinary skill in the art to modify Masumoto to include a polished surface as shown by Cecconi in order to obtain the desired finish. The process of forming the above article is given no patentable weight in the article claim. As to claim 7, a polished metal inherently glitters to a degree. As to claim 9, Masumoto teaches the use of titanium. As to claim 10, the above combination with inherently result in a surface that shows corrosion resistance.

Allowable Subject Matter

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Respons to Arguments

Applicant's arguments filed November 3, 2003 have been fully considered but they are not persuasive. Applicant's remarks are held to be moot in view of the newly applied reference and rejection above. Applicant has filed a new drawing figure and a substitute specification. They appear to overcome the previously applied objection, however, applicant must make a statement that the newly submitted drawing and specification contain no new matter before they can be officially approved for entry.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kushnick (4582117) shows the use of an amorphous metal.

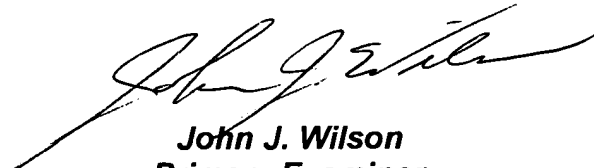

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
